

SUMMARY

Innovative and detail-oriented Full Stack Developer skilled in building scalable web applications with Python, Django, and modern web technologies. Proficient in designing and delivering cost effective, user-centric solutions, with hands-on experience in database optimization, and responsive UI design. Passionate about solving real-world problems while thriving in collaborative environments to deliver innovative solutions.

TECHNICAL SKILLS

- **Programming-Languages:** Python, SQL, JavaScript
- **Frameworks and Libraries:** Django, Bootstrap
- **Web Technologies:** HTML5, CSS
- **Databases:** MySQL, PostgreSQL
- **Version Control :** Git and Github
- **Tools:** VS Code, Jupyter Notebook, PyCharm, HeidiSQL
- **Industry Knowledge :** Software development Life Cycle(SDLC), Time Management, Team Orientation
- **Soft Skills:** Collaboration, Problem-Solving, Adaptability, Communication

PROJECTS

- **MotoCar Rental:**
  - Developed an India’s Finest Vehicle Rental website using Django, combining car and bike rental services on single platform.
  - Designed to empower local dealers with the potential to increase their business by 70% through vehicles competitive prices, making rentals accessible and affordable for users.
  - Integrated advanced features like cart management, user authentication, authorization, and payment gateway support. Ensured a 100% simplified documentation process and secure transactions.
  - Enhanced search and filter functionalities for efficient vehicle discovery by location and price.
  - Focused on scalability , user-friendly design, and robust database management.
- **Weather Blog App:**
  - Created a platform where users can view weather- related blogs , like, comment on posts, enhancing user interaction and engagement.
  - Implemented secure login , registration, and role-based access(RBA), ensuring that users and bloggers have appropriate access levels.
  - Enable bloggers to create , edit, and delete their own blogs, providing a user-friendly content management system for easy blog updates.
  - Integrated interactive features like liking, and commenting on blogs, fostering community interaction and user participation.
- **Pet Store E-Commerce Website:**
  - Developed an e-commerce website for pets.
  - Created detailed pet profiles with information breed, age, name to assist buyers in making informed decisions.
  - Integrated advanced features like cart management, user authentication, authorization, and payment gateway support, ensuring seamless transactions.
  - Implemented optimized search and filter system for easy navigation.
- **Student Study Portal (ongoing)**
  - Developing a feature-rich Django application to assist students in managing studies.
  - Features include book browsing, note creation, homework tracking, to-do list, dictionary lookup, unit conversions, Wikipedia integration, and YouTube access.
  - Focused on building an intuitive, productivity-enhancing user interface.
  - Currently focusing on performance optimization and UI enhancement for better user experience.

EDUCATION

- |  |           |
|--|-----------|
| • <b>Master of Computer Application (MCA)</b>   Savitribai Phule Pune University   |           |
| CGPA: 7.10   | 2022-2024 |
| • <b>Bachelor of Computer Application (BCA)</b>   Savitribai Phule Pune University |           |
| CGPA: 7.83   | 2019-2022 |

CERTIFICATES

- |  |                     |
|--|---------------------|
| • Certified Python Full Stack Developer Course   IT Vedant Education Pvt. Ltd. | (Duration 6 Months) |
| • Python for Web Development   IBM   |                     |
| • Young Python Professional   Infosys Springboard                              |                     |
| • Foundation with SQL   IT Vedant  |                     |
| • SQL Basics   HackerRank  |                     |
| • Software Engineering and Agile Software Development   Infosys Springboard    |                     |
